

Stéfani Soares Freire

Tech Lead

Vitória da Conquista, Brazil (open to remote roles) | (77) 9 9915-8332 | stefani7freire@gmail.com
Portfólio: portfolio-z8v7.vercel.app | LinkedIn: linkedin.com/in/stefani-freire | GitHub: github.com/s7efani-freire

PROFESSIONAL SUMMARY

Tech Lead with more than 4 years of experience in development (fullstack PHP/Laravel and React/TypeScript), also working with IoT integrations and corporate Linux infrastructure. I lead a team of 5 developers (including 1 QA), architecting and developing critical systems such as a traceability system integrated with a corporate ERP (Protheus) and an industrial monitoring platform with ESP32 sensors and RFID. I am strongly involved in legacy system migrations, refactoring, and deployment in corporate production environments (Ubuntu Server, IIS, proxy).

PROFESSIONAL EXPERIENCE

Tech Lead - Teiú Indústria e Comércio LTDA
July 2025 - present

I lead a team of 5 developers (including 1 QA), defining system architectures, technology choices, and engineering best practices, including code review, mentoring, and REST API standardization. I coordinated, developed, and delivered more than 10 systems in the last year, including a traceability system integrated with a corporate ERP (Protheus) and an industrial monitoring platform with ESP32 sensors and RFID, combining critical integrations, IoT, and corporate infrastructure.

Skills: Software Architecture, Technical Leadership, Code Review, Mentoring, TypeScript, Tailwind CSS, Laravel, PHP, SQL, Git, IIS Server, MySQL

Web Developer - Teiú Indústria e Comércio LTDA
June 2024 - June 2025

Web systems development using front-end, back-end, database, and server management technologies, focused on building solutions that make a difference.

Skills: JavaScript, Bootstrap, Laravel, PHP, SQL, Git, IIS Server, MySQL

Electronics Technician - Teiú Indústria e Comércio LTDA
June 2022 - June 2024

Development of automation and hardware integration systems, including routine creation, embedded systems support, and electronic circuit prototyping.

Skills: Automation, Esp32, MicroPython, HTML5, CSS3, PHP, Ubuntu Server, MariaDB

FEATURED PROJECT (FREELANCE)

EcoFluid MES

Manufacturing Execution System (MES) for real-time production control at a recycled irrigation-hose factory, covering production order execution, output logging, downtime, and OEE KPIs, with OAuth2 integration to the Bling ERP.

Skills: React, TypeScript, Vite, React Router, Tailwind CSS, TanStack Query, Laravel, Laravel Sanctum, SQLite, MySQL, OAuth2

EDUCATION

Software Engineering - Faculdade Anhanguera
Ongoing (expected completion in 2028)

Civil Engineering - Faculdade Independente do Nordeste (FAINOR)
Expected completion in the second half of 2026

Electronics Technical Course - Instituto Federal de Educação, Ciência e Tecnologia da Bahia (IFBA)
Completed

STACK & SKILLS

Architecture & Leadership: Software Architecture, Technical Leadership, Code Review, Mentoring, Legacy Refactoring, REST API Design

Development & ERP: PHP, Laravel, Laravel Sanctum, TypeScript, JavaScript, React, React Router, TanStack Query, Node.js, Vite, Tailwind CSS, HTML5, CSS3, SQL, MySQL, MariaDB, SQLite, REST APIs, TOTVS/Protheus (integration)

IoT & Industrial Automation: Automation, Esp32, MicroPython, RFID, Facial Biometrics (in development), GPS/Telemetry (in development)

Data & AI: Computer Vision (Python), RBAC, OAuth2

Infrastructure & Tools: Linux, Nginx, Apache, IIS Server, Ubuntu Server, Git, Insomnia, Figma

Methodologies: Scrum, Kanban, Agile, Jira, Slack

Languages: Portuguese (native), Technical English
